OBJECTIVE

I am a motivated and creative front-end web developer with a strong passion for learning and growing in the field of technology. I have hands-on experience with HTML, CSS, and JavaScript, and I have built projects that highlight the beauty and culture of Afghanistan through modern web design. For me, Assel is not just a job opportunity—it is a bridge toward growth, deeper learning, and becoming an empowered woman in the tech world. I believe that with the support of this organization, I can strengthen my skills and make a meaningful impact in my community. I am eager to become part of a team that inspires girls to innovate, learn, and build a brighter future through technology.
